

Here is a test site that you may use to see if you will be able to connect. You may be asked to download an application and allow the application to make a change on your computer. You should accept, run, or say “yes” to these questions.

If you would like to join a test meeting:

1. Click on the following link to access a test meeting: <https://www.webex.com/test-meeting.html>
2. Enter your Name and Email Address, then click Join.
3. Your test meeting will load:

This is followed by a dialog box stating 'The host has not yet joined the meeting'.

Click OK to close the dialog box.

At this point, you have joined successfully, and the WebEx Meeting Center client for the test meeting is successfully installed.

4. Click on the File menu, and choose Leave Meeting.

This will close the test meeting.
