

ND Dual Sensory Resource Library

The ND Dual Sensory Project Resource Library contains over 375 materials on deaf-blindness for educators, families and the general public. Materials include books, assessment tools, and videos that are available to better understand deaf-blindness. Resource materials are physically housed at North Dakota Vision Services/School for the Blind but can be accessed online.

The books and videos from the project library can easily be accessed from the Online Dakota Information Network (ODIN) the statewide interlibrary loan program at: <https://www.odin.nodak.edu/>

Once at the website, search for deaf blind and you will see a host of materials covering that topic.

If there are any questions, contact Dr. Brent Askvig, Project Director (701-720-7715) or from the North Dakota Vision Services/School for the Blind Librarian (701-795-2709).
