

Campus Life and Housing

Campus Life

Campus life includes all things that happen outside of the academic realm of a student's college experience. Campus life is a key element towards a student's social and emotional development and leads to increased independence and self-determination.

Students have the opportunity to attend a wide variety of FREE activities and events on campus such as MSU sporting events, movies, dances, comedians, musicians and even hypnotists just to name a few. MSU also has a diverse [list of clubs](#) and organizations. ASTEP students are highly encouraged to be engaged in campus life and there is something for everyone!

Visit the [MSU Life Facebook](#) page for more information regarding campus events!

Housing

Students are eligible to live in inclusive campus housing (a meal plan is required if living on campus). 24/7 supports are not provided. Residence Life Staff along with peer mentors are available to provide support as appropriate. If eligible, some students utilize Developmental Disabilities (DD) services while living on campus.
