

The Great Plains Interdisciplinary Diagnostic Clinic (GPIC)

is designed to conduct regionally located diagnostic services in two locations in North Dakota. Our clinics demonstrate an interdisciplinary approach, utilizing an arena-style assessment for children suspected of having an Autism Spectrum Disorder (ASD).

Red Flags for Autism Spectrum Disorders

6 months	No big smiles, joyful facial expression
9 months	No reciprocal sharing of sounds, smiles, or facial expressions
12 months	No babbling, reciprocal sharing of gestures (pointing, reaching, waving)
15 months	No words
24 months	No two word meaningful phrases without imitation or repetition
Any age	Any loss of speech/babbling or social skills
