

# SAVE THE DATE

WEDNESDAY, MAY 27 AND THURSDAY, MAY 28, 2026

## SENSE & SYMBOL:

Discovering meaning through sensory learning

## WHAT TO EXPECT:

Join co-author of APH's "Sensing & Learning", Stacey Chambers, for an engaging 2-day professional development training designed to help educators support students with sensory and cognitive learning needs.

This training combines the "Sensing and Learning" strategies with the "Symbols and Meaning" games to explore how tactile experiences can build pathways to symbolic understanding.

Participants will learn practical strategies to create meaningful connections between sensory input and concept development, fostering deeper engagement and comprehension for all learners.
